

Walker Art Center

New Media Department + Robin Dowden,

My name is Greg Schomburg; I am a recent graduate of the Minneapolis College of Art and Design Interactive New Media Program. Eric Ishii Eckhardt recently informed me of the open position in your New Media department. Though I have just recently graduated I have been working professionally for the last five years. The majority of my experience has been in flash development making games, applications, and websites. At the same time I was creating new media projects for school using less popular, less web based new media software such as Director and maxMSP. I believe that my abilities and passion for new media would be a tremendous asset to your department. After reviewing my included URL list I hope you will agree with me.

I look forward to hearing from you.

Greg Schomburg
